EDUCATION

B.Tech in Artificial Intelligence and Machine Learning **June 2023 – Present**
CSPIT - Charusat University, Gujarat, India

- Current GPA: 9.01 / 10.0

SKILLS

- **Languages:** Python, R, SQL, C, C++, Java
- **Frameworks:** Pandas, NumPy, Scikit-Learn, Matplotlib, FastAPI
- **Tools:** Power BI, Tableau, MySQL, n8n, Git/GitHub, Docker
- **Platforms:** VS Code, Google Colab, Kaggle
- **Soft Skills:** Excellent Communication, Teamwork, Problem-Solving, Creativity

WORK EXPERIENCE

Head of Product Engineering **May 2026 – Present**
AP TECHPOWER

- Define technology strategy, solution architecture, and product roadmaps while leading engineering teams building scalable AI/GenAI solutions and SaaS platforms.
- Collaborate directly with clients to deliver secure, scalable, and outcome-driven software solutions across cloud infrastructure and custom product development.

Digital Transformation Officer **Jan 2026 – May 2026**
Diya Marketing

- Led technology and digital innovation initiatives focused on transforming the building materials ecosystem through modern software solutions and process automation.
- Designed and implemented automation initiatives to improve operational efficiency and digital workflows.

Undergraduate Student Fellowship **July 2025 – March 2026**
CHARUSAT University

- Contributed to academic and technical initiatives within the AIML Department while applying team management skills and developing MERN-stack projects.

AI Engineer **May 2025 – Sep 2025**
Phaze AI

- Built and optimized large-scale web scraping pipelines using Selenium and BeautifulSoup for national eProcurement portals.
- Designed and deployed n8n workflows integrating automation, data processing, PostgreSQL, and cloud systems.

PROJECTS

SurakshaSaathi — AI Financial Scam Protection Platform — [LINK](#) **Jul 2026**

- Built a multilingual AI voice agent that engages scammers in live calls, analyzes conversations in real time, and detects fraud patterns including OTP, UPI, phishing, and loan scams.
- Implemented LangGraph agent orchestration with LLM reasoning, rule-based fraud detection, dynamic risk scoring, and Decoy/Honeypot mode, integrating Twilio and n8n for automated call handling and alerts.

E-Commerce Churn Intelligence System — [LINK](#) **Mar 2026**

- Built an end-to-end churn intelligence system using Random Forest, achieving 94.87% accuracy and identifying 948 at-risk customers from 5,630 records.
- Automated customer segmentation, MongoDB prediction storage, and personalized AI-written retention emails using n8n, with a fully Dockerised FastAPI deployment.

- Built a full-stack ML platform that identifies at-risk students from attendance, marks, assignments, and LMS activity using XGBoost and Neural Networks.
- Generated 0–100 risk scores with SHAP explainability and implemented role-based dashboards with automated parent meeting scheduling through n8n and Google Calendar.

CERTIFICATIONS

- | | |
|---|-----------------|
| • Getting Started with Deep Learning (NVIDIA) — LINK | Dec 2023 |
| • Getting Started with AI on JETSON-NANO (NVIDIA) — LINK | Feb 2024 |
| • Data Structure And Algorithms Using JAVA (NPTEL) | Oct 2024 |
| • Data Base Management System (NPTEL) | Apr 2025 |

ACHIEVEMENTS

Publication

- DemocraticNet: A Deep Learning Pipeline for Multi-Class Multi-Label Ministry News Classification successfully accepted, presented at the Ninth International Conference on ICTCS 2024.

Other Achievements

- Won the Odoo × Gujarat Vidyapith Hackathon, outperforming 900+ teams and 2,000+ participants from 15 states across India, awarded Rs. 45,000 cash prize.
- Won 1st place in the ML InnovateX Hackathon organized by Samatrix.io at CHARUSAT, competing individually with an AI/ML-based solution.
- Secured 2nd place in the n8n Community Hackathon by building an innovative AI-powered automation solution.
- Selected among Top 200 teams out of 15,000+ teams and 40,000+ participants at AI Summit Buildathon by HCL GUVI; ranked 15th nationally in the final round with a score of 85/100.
- Secured selection among 800 teams chosen from 31,000+ applicants across India for the Meta x OpenEnv Hackathon; attended the offline round in Bengaluru.
- Achieved **Pupil** rank on Codeforces, demonstrating strong problem-solving skills.
- Secured a Rs. 1,00,000 grant for developing an AI-based autonomous drone project.
- Leading the department's Robot Project as Project Head, securing a Rs. 1,00,000 grant for its development.
